

BRUMBAUGH'S HOME FOLKS TURN OUT TO SHOW HIM HONOR

Huntingdon County's Cele- bration Begins Moment Governor-elect Crosses Line.

HUNTINGDON, Pa., Nov. 10.—Never before in Huntingdon County's history has she honored a native son so wholeheartedly as at the reception given here this afternoon and evening for the Governor-elect, Martin Grove Brumbaugh.

Dr. Brumbaugh arrived at 1:32 o'clock this afternoon. As soon as his train passed the county line, the celebration in his honor began.

The train stopped at Mt. Union 10 minutes. There the Governor-elect was greeted by several thousand people. Hundreds of school children waved flags and sang patriotic songs, and congratulatory shouts came from friends on all sides. The brick works closed down that the employees might greet their favorite. These were only a few features of the big Mt. Union gathering, which Doctor Brumbaugh addressed from the rear of his train.

Similar ovations greeted him at Mapleton, Mill Creek and Ardesham. When he arrived here, Doctor Brumbaugh was no longer "Doctor," but just plain "M. G."

A reception committee of 150, accompanied by a vast throng, greeted him when he alighted. He boarded a train of the Huntingdon and Broad Top Railroad to carry him to his native town, Marklesburg, where the entire citizenry, including his venerable father, the Rev. George Boyer Brumbaugh, 81 years old, turned out to greet him.

The Governor-elect spent two hours with his father there, returning to Huntingdon for a public reception at the Leicester House.

At 7:15 o'clock the mammoth parade, with 75 divisions of bands, patriotic orders, Juniata College faculty and students, school children, fire companies and thousands of admiring friends of Doctor Brumbaugh, will take place.

Along the line of march pyrotechnic displays will light the way, and banners of welcome and congratulation will greet the Governor-elect.

The national colors are everywhere in display. The open-air meeting tonight promises to be attended by at least 10,000 people. H. H. Waite, Esq., will deliver the address of welcome, to which Doctor Brumbaugh will respond.

BIDS FOR \$5,550,000 DESTROYERS OPENED TODAY

U. S. Navy Department Takes Step in New Equipment.

WASHINGTON, Nov. 10.—The Navy Department today will open bids for the construction of six torpedoedestroyers larger than any now in commission in the United States Navy.

The limit of cost, exclusive of guns and torpedo tubes, will be \$2,200,000 each. The new vessels will embody certain military characteristics not included in the latest type of destroyer, including anti-balloon guns. In general the dimensions of the new vessels are identical with those of the preceding class, with the exception of the draft, which has been increased 15 inches, giving a displacement of 1110 tons as compared with 1090 tons for the previous class.

On an increased displacement of 20 tons it has been found possible by careful design to carry four additional torpedo tubes with the necessary torpedoes and two anti-balloon guns.

SERB EARTHWORKS FALL AS AUSTRIANS STORM

Vienna Wires Report of Victories to Local Consul.

Official wireless messages received today at the Austro-Hungarian Consulate in Philadelphia from the Foreign Office in Vienna announced desperate engagements between the Serbians and Austro-Hungarians in the region of Krupanj. The advantage of the fighting has been with the Austrians, the Foreign Office says.

No engagements of any consequence are being waged in the northeastern theatre of war at the present time, according to this statement.

The official statement is as follows: "Desperate engagements continue in Serbia near Krupanj. Earthworks after earthworks and points of support have been taken by our troops by storm. No fighting are going on in the northeastern theatre of war."

CITY HAS NO NEW LAMPS

Only Four Lights Added in Two Years, Says Cooke.

Not more than four electric lights have been added to the city's street lighting system since 1912, according to Director of Public Works Morris L. Cooke.

The Director today wrote a letter to Burton C. Simon, a builder of South Philadelphia, advising that necessary lights in newly developed sections had to be obtained by transfer from corners where they could be spared.

"Failure to provide these lamps," wrote the Director, "cannot be due to lack of money, because, in the first place, we have cut the bill of the Philadelphia Electric Company by \$100,000 a year in the last three years. Also, we have had in Council for months an ordinance to change 11,000 gas lamps to gas, which if passed would save for the city \$80,000 a year."

Prior to the advent of the present Administration, according to Director Cooke, new lamps were provided at the rate of about 800 a year.

TROLLEY HEARING POSTPONED

Utility Commission Delays Consideration of Camden Service.

TRENTON, Nov. 10.—The State Public Utility Commission today postponed until next Tuesday the hearing scheduled for today on the proposition offered by the Public Service Corporation regarding trolley service in Camden. The commission, after hearing the opening of the case, decided that it was necessary to give the matter further consideration before a hearing.

COURT SCORES ELECTION OFFICERS FROM GERMANTOWN

Hopeless Figures Condemned as "Stupidity or Worse."

Two sets of Germantown election officers got a severe rebuke from Judge Audenried in the election court today when the returns from their divisions, the 4th and 5th of the 22d Ward, were found to disagree hopelessly as to the figures on the three sheets. The minority inspector said he refused to sign the returns, and the court asked for his envelope.

"I haven't got it. I wasn't told to bring it here. It would take me two hours and a half to get home and back," replied the election officer.

"Well, the court will give you just two hours to produce the paper, and if you are much longer we will hurry you along with a policeman," said Judge Audenried, as the minority inspector hastened out. The other election officers were detained. The election board of the 22d Division, the returns from which also showed discrepancies, was summoned to the bar, and ordered to compile a new set of returns. Both Judges Audenried and Davis were unable to compute these returns, and the former remarked:

"There is no excuse for such bungling except stupidity, or something worse."

On being informed by election officers in the 12th Division of the 24th Ward, that they had inadvertently counted 17 Democratic votes twice, and desired to make a correction, the court permitted them to adjourn and revise the figures. There was no question regarding the accuracy of the corrected returns and the court accepted them, Judge Davis telling the election officers that they had acted properly in telling the court of the mistake.

While awaiting reports from the two 22d Ward divisions, the Judges resumed counting the votes from the 25th Ward.

INTEREST IN APPOINTMENTS OF CAMDEN'S NEW SHERIFF

Councilman Haines Will be Sworn Into Office Today.

Haines, elected Sheriff of Camden County on the Republican ticket to succeed Sheriff Nowrey, Democrat, will be sworn in late this afternoon by Judge Boyle in the office of County Clerk Patterson.

Announcement of appointments under the new Sheriff, which have caused considerable speculation since the election of Haines, will be made immediately after he takes the oath of office. From a reliable source it was learned today that James E. Hewitt, president of Councils, will be appointed under-sheriff, to succeed Alvin B. Pitman. Walter Anderson, of Gloucester City, it is understood, will be appointed Real Estate Deputy Sheriff, taking the place vacated by Harry Marter, who has held the position for 15 years.

Alfred Matthews, of Haddon township, a clerk in the Surrogate's office, will receive the appointment of clerk in the Sheriff's office, to succeed Edward Kelleher, secretary of the Democratic City Committee. The clerkship vacated by Matthews in the Surrogate's office will be given to Robert Stafford, of Berlin, N. J.

WILL OPEN FRONT STREET

Director Cooke Heeds Plea of Kensington Delegation.

A delegation of business men from the Kensington Board of Trade called on Director Cooke, of the Department of Public Works, today to urge that Front street be opened from Nicetown lane to the Northeast Boulevard.

They told the Director that by the opening of Front street a direct route to Olney, Lansdale and Fox Chase would be afforded and the detour by 5th street or Frankford avenue would be avoided. Director Cooke said delay had been caused by the laying out of a curve in the roadway at the Municipal Hospital for Contagious Diseases, but that grading of the street should be begun at once and the street opened at the earliest possible date.

Members of the Kensington Board of Trade included in the delegation were: President A. C. Keeley, J. E. Blecher, Harry Hetherington, Dr. John Loch, John Reynolds, Common Councilman of the 15th Ward; R. Lincoln McNeil and A. M. Waldron, Select Councilman of the 31st Ward.

OPEN-AIR SUFFRAGE MEETING

Phila. Delegates to National Convention Will Speak Before Departure.

Before the departure at noon today of the Philadelphia delegation of suffragists to the national suffrage convention in Nashville, Tenn., an open-air meeting will be held at the corner of 8th and Chestnut streets, under the auspices of the Equal Suffrage Society. The principal speaker will be Miss Adella Potter, a county organizer, who has come here from New York to accompany the local delegates to the convention.

Members of the Philadelphia delegation include Miss M. Carey Thomas, president of Bryn Mawr College; Mrs. Wilfred Lewis, president of the Equal Franchise Society; Dr. Mary Stilwell-Kusel and Miss Mary A. Burnham.

MOHAWK PATROLS COAST

The neutrality of the United States within the three-mile limit off the Atlantic coast between Sandy Hook and Delaware Capes will be looked after by the revenue cutter Mohawk, which replaced the derelict destroyer Seneca this morning.

The cutter, which has been ordered to patrol the coast between Sandy Hook and Delaware Capes, will be looked after by the revenue cutter Mohawk, which replaced the derelict destroyer Seneca this morning. The cutter will be ordered to patrol the coast between Sandy Hook and Delaware Capes, which will be looked after by the revenue cutter Mohawk, which replaced the derelict destroyer Seneca this morning.

The association has a membership of about 50, and its assets are \$400,000. One faction declared that about half of those who voted at the election in January were given marked ballots.

NEW ELECTION ORDERED

Court Disapproves of Tactics Used by Loan Society Faction.

Old-time political tricks, said to have been used to control the election of directors of the Kosciuszki Building and Loan Association, Camden, came to naught today by decision of the New Jersey Supreme Court. The court, in a ruling handed down at Trenton, ordered the association to elect a new board of directors.

The association has a membership of about 50, and its assets are \$400,000. One faction declared that about half of those who voted at the election in January were given marked ballots.

ASSEMBLYMEN WHO BRING READING FAME

TALLEST MAN IN THE STATE LEGISLATURE
Mahlon Shaaber, Republican, of Reading, Civil War veteran, 70 years old and 6 feet 7 1/2 inches in height, on the left. The man beside him is more than the average height.

TALLEST LEGISLATOR FROM READING; SOCIALIST, TOO

Two Members of House, of Different Parties, Elected by Identical Vote.

READING, Pa., Nov. 10.—Reading's next representation in the Legislature will enjoy unique distinction. Mahlon Shaaber, Republican, will be the tallest man in the Assembly, while James H. Maurer will be the only Socialist member. An unusual feature of their election is, that while they are members of different political parties, each polled the same number of votes—389.

Shaaber is a veteran of the Civil War and is 70 years old. He is a veritable giant, measuring 6 feet 7 1/2 inches, is physically active, and during the recent campaign was a marvel of endurance.

When 17 years old, in 1853, Mr. Shaaber enlisted in the army, and while his company was on review before President Lincoln and members of his Cabinet in Washington, he attracted the attention of "Old Abe." He was ordered to the side lines at the request of the President, who said, "Excuse my rudeness, but jealousy on my part made me call you to attention."

President Lincoln was more than 6 feet tall, and he was astonished at the size of the youthful recruit. During the battle of Falmouth, Mr. Shaaber was wounded in both legs, which wounds have never completely healed. Otherwise he is in perfect physical health.

In James H. Maurer, Socialist, the laboring classes have a two-fisted fighter, whose election can be attributed to a great extent to his popularity with organized labor, with which he has been identified for 31 years. He promises to introduce a workmen's compensation bill and a new child labor bill. Mr. Maurer is 50 years old, and is serving his third term as president of the State Federation of Labor. During the session of 1911 Maurer was a member of the House.

Maurer proposes, in the event that the unemployed problem continues, to introduce a bill providing that the State arrange to give employment to those who are willing to work. "I do not mean that it should be done by the State," said Mr. Maurer, "but give bread-winners, who are willing to work, the means of earning an honest living."

FRIENDS BAN WAR TOYS

Exhibit of Central School Will Close Today.

The fourth annual book and toy exhibit of Friends' Central School, at Friends' Girard Avenue School, 17th street and Girard avenue, will close today. More than 600 worth of books, toys and games loaned by six Philadelphia and three New York firms comprise the show, one of the most complete of its kind ever shown here.

The exhibit was started four years ago to help parents make selections of Christmas gifts for children. Jana F. Rushmore gave a talk yesterday afternoon on "The Educational Value of Toys and Games." Nothing pertaining to war, such as toy cannons, soldiers and guns, is permitted in the exhibit.

INSTRUCTOR NAMED FOR NAVAL RESERVES HERE

Lieutenant Commander Landenberger to Begin Improvements.

Realizing the value of the Naval Reserves to the navy in case of war, the Navy Department today assigned Lieutenant Commander George B. Landenberger as instructor-instructor of the Pennsylvania Naval Reserves. This is the first step toward placing the Reserves on the highest plane of efficiency.

T. T. Nelson, Jr., of this city, is commander of the Naval Reserves. He has charge of three divisions, one here and two in Erie. The headquarters in this city is at 314 Parkway Building.

Lieutenant Commander Landenberger will instruct and inspect only the city division. Another appointment is expected for the western divisions.

Lieutenant Commander Landenberger, who has been in charge of the local branch of the hydrographic office, with headquarters in the Bureau, is enthusiastic over his appointment. He said the Naval Reserves were invaluable to the navy. The men can be trained to be almost as efficient as those who spend several years in service on warships, he asserted.

As executive officer of the battleship Tennessee, Lieutenant Landenberger had an opportunity to study the work of the Naval Militia during the cruise of the Michigan Reserves.

Commandant Nelson and Lieutenant Commander Landenberger are now preparing elaborate plans for adding to the worth of the Naval Militia. The latter will conduct his first inspection in a few days, and following it the work of improving the training will be forwarded expeditiously.

FRENCH RESERVIST FALLS AMONG BILL MATCHERS

Suspect Arrested When \$200 Proves to Be Stage Money.

Winning \$200 by matching bills with five strangers gave Joseph de la Riviera, of British Columbia, a shock when he learned that the money was of the kind used on the stage. One man is under arrest today waiting a hearing in the case.

The prisoner is John H. Harris, his address is not known. De la Riviera has furnished Detectives Scanlon and McCarthy with a description of the other four.

The victim is a French reservist and was on his way back to his native land to join the colors. He stopped off in this city to say good-by to relatives.

De la Riviera is a wealthy horse raiser and was well supplied with money. He asserts one of the five men proposed a game of matching bills. Three of the others reluctantly permitted themselves to be drawn in. De la Riviera won.

His opponents manifested deep chagrin over the loss and seemed relieved when the fifth of the gang, impersonating a private detective, broke up the game.

De la Riviera then went to his room and found that he had won more than \$200 worth, on its face, of stage money. The swindlers had obtained half that amount from him in good notes.

AUSTRIAN MOVE ON SHABATS CHECKED BY SERB BRAVERY

Save River Town Scene of Great Artillery Duel.

NISH, Nov. 10. An offensive movement by the Austrians against the Serbian positions near Shabats, on the Save river, has been repulsed, it was announced today. The official statement follows:

"Austrian attacks beginning November 6 against the fortified positions of Jadovna and Goutechev have been repulsed. The Austrians, bringing up reinforcements, attacked our positions near Shabats, where an artillery duel lasted 12 hours. Many feats of bravery were manifested by both sides."

"The Serbians had the advantage in positions and were able to stem the advance. However, the Austrians won the admiration of our troops by their gallantry in this action."

HELD AS CHECK PASSER

Alleged "Hard Luck" Story Teller Finds More of Same.

Robert Moore, accused of passing worthless checks, was held in \$50 bail today by Magistrate Emery in the Front street and Susquehanna avenue station. The man said he had no home.

Moore was arrested last Saturday by Special Policeman Kease on a warrant sworn out in September by Frank Commo, 211 North Front street, who alleges Moore and a man who called himself E. C. Crawford passed a worthless check on him by a "hard luck" story. The police have been unable to trace the second man.

AGED MEN, COLD AND HUNGRY, ASK LODGING FOR THE WINTER

Contingent of Army of Unemployed Welcome Term in Jail.

Destitute and shivering from the cold winds, several gray-haired men have invaded the local police stations begging the Magistrates to send them to the House of Correction for the winter.

In many cases the men are native Philadelphians. Until yesterday the days and nights were fairly warm, and this small contingent of the army of the unemployed "weathered" it from day to day, living mostly on hope.

But minus overcoats and lacking proper nourishment, and with clothes worn threadbare, the men have begged to be sent "up the river." There, at least, they can keep warm. Some have been there before.

"You are a little late this year, John," said Magistrate Tracy to John, 60 years old, known as the "Big Yaw Winkle" of the Tenderloin, who appeared before him in the 11th and Winter streets station this morning to ask for a winter's lodging.

"Yes," the man answered, "the weather has been warm and I thought I wouldn't take the trip quite so early this year. I have been looking for work, but it's the same old story. Nobody wants a broken down old man, and believe me, the only way to get a job is to have one."

Meehan was given six months and he left happy. He was told he would be freed again in the spring in time to meet the birds from the South.

John Marley, 63 years old, and Frank Sweeney, 59 years old, were nearly frozen when they dropped into the police station at 10th and Buttonwood streets late last night to ask for a night's lodging. They were given warm and comfortable rooms and said this morning they could hardly sleep because of the nice curtains. They told Magistrate Becker this morning that they were born in this city, but, like many others, they had failed to make their fortune.

They were given six months. Charles Emmet, 60 years old, no home, was given three months by Magistrate Campbell, in the Belmont and Chestnut streets station, this morning. He, too, had asked to be kept warm.

ONLY \$350,000 AVAILABLE TO GIVE WORK TO JOBLESS

\$2,101,298 Balance Dwindles Under Investigation.

The \$2,101,298 balance of the municipal fund, declared "immediately available" for contract, in a resolution introduced in Councils last week by John P. Connolly, is said to have dwindled to less than \$350,000 under rigid investigation by heads of city departments.

The resolution directed the Mayor to put the supposed idle millions into use at once as a measure of relief for Philadelphia's unemployed.

At the same meeting of Councils an item of \$200,000 was made available for use of the Highway Bureau, which enabled Chief Connolly to recall to work almost 50 street repair men laid off because of lack of work. Two months ago and who have since been unemployed because Councils ignored the Mayor's repeated requests for appropriations to reinstate them.

It is asserted unofficially in Administration circles that virtually all funds included in the \$2,101,298 are either under contract or restricted and not immediately available, excepting possibly \$607,000, which the resolution declares is available for the Fairmount Park Commission. The Mayor will attend meetings of the commission tomorrow to learn the exact status of that item.

The Mayor will attend meetings of the commission tomorrow to learn the exact status of that item.

POLITICIANS ADMIT END OF BIGELOW'S HIGHWAY TENURE

Governor-elect Brumbaugh's Pledges Assure Retirement of Commissioner—Connell a Possible Successor.

One of the first official acts of Dr. Martin G. Brumbaugh when he becomes Governor of Pennsylvania will be a complete reorganization of the State Highway Department. It was admitted by political leaders today. They added that when he carries out his pledge to place the department on a highly efficient basis, Governor Brumbaugh, instead of being hampered by the Republican State leaders, will have their united support.

The first step in the reorganization, it is expected, will be the retirement of E. M. Bigelow as Highway Commissioner. This is generally admitted by all of the Republican chiefs, including Senator Penrose. Penrose admitted that Bigelow must go as early as last October, when the Republican State Committee met in Pittsburgh. The Senator at that time refused to permit the State Committee to include in the Republican platform an endorsement of the Turner administration, because of the ill repute in which Bigelow has placed the State Highway Department.

The Governor-elect pledged "100 cents of taxes paid for roads" frequently during his campaign, and at Cochransville, during the week previous to election, in answer to a direct question as to whether he would oust Bigelow, he pledged himself to "completely" reorganize the State Highway Department.

Many political leaders expect that Bigelow will resign before Doctor Brumbaugh is inaugurated. The Highway Commissioner has been in extremely ill health recently, and they point out that he could resign for that reason, and thus avoid a public repudiation of his administration.

Talk of Bigelow's successor has centered so far around only one man. He is William H. Connell, chief of the Highway Bureau of Philadelphia. The Governor-elect knows Chief Connell personally, and is known to consider him an efficient road builder and a good executive. In support of their assertions that Chief Connell is being considered as a possible successor to Bigelow, politicians today pointed to the letter sent last week by Director Cooke to Chairman Connolly, of Council Finance Committee, in which Director Cooke asked an increase of \$300 to Chief Connell's salary.

Director Cooke in his letter intimated that the city might lose the services of Chief Connell, and asked that the increase be granted in an effort to keep him in his present position.

The Governor-elect, however, has now committed himself as to whether he desires a "road-builder" at the head of the State Highway Department or not. Some of his friends have said that he favors first of all a good executive for the position, a man who would give a good business administration of his duties, and politicians are discussing the probability of the Governor-elect appointing a "business man" in Bigelow's place, an relying upon his appointee to employ his engineers to do the road building, probably under civil service regulations.

FAST PACER STOLEN

Horse Thieves Enter Stable and Drive Off With Grace Michael.

ELKTON, Md., Nov. 10.—Grace Michael, a 5-year-old sorrel pacer, with a mark of 2:11, owned by George Miles, of near Elkton, was stolen last night by thieves who visited the stable of Herman Tyson, at Newark, Del.

Tyson returned yesterday with a pair of horses he has been racing on the Western circuit. The thief, in return for Grace Michael, also stole a set of harness and a rubber tire vehicle belonging to Tyson.

JUDGE SWARTZ GIVES IMPORTANT RULING AFFECTING POLLUTION OF STREAMS.

NORRISTOWN, Pa., Nov. 10.—In dissolving an injunction brought by Howard Roberts, a Norristown real estate dealer, to restrain the borough from severing a connection made to the sanitary sewer system, which discharges into the Schuylkill River, without permission from the borough authorities, Judge Swartz decided a question of State-wide importance as to the pollution of the public streams.

"In our judgment," said the court, "the act of 1913 has stopped all further connections with Norristown's sanitary sewer from the time of its passage. As I understand the law, the sewer system as it stood at that time would remain unmolested, but that, pending the erection of a sewage disposal plant, it is not to be changed or altered in any way or any further connections made with it. It may or may not be that the borough, in granting permission to the property owner, in making the connections, are violating the law and are subject to arrest and fine at the hands of the State Health Department."

SANITARY SEWER PROTECTED

Judge Swartz gives important ruling affecting pollution of streams. In dissolving an injunction brought by Howard Roberts, a Norristown real estate dealer, to restrain the borough from severing a connection made to the sanitary sewer system, which discharges into the Schuylkill River, without permission from the borough authorities, Judge Swartz decided a question of State-wide importance as to the pollution of the public streams.

"In our judgment," said the court, "the act of 1913 has stopped all further connections with Norristown's sanitary sewer from the time of its passage. As I understand the law, the sewer system as it stood at that time would remain unmolested, but that, pending the erection of a sewage disposal plant, it is not to be changed or altered in any way or any further connections made with it. It may or may not be that the borough, in granting permission to the property owner, in making the connections, are violating the law and are subject to arrest and fine at the hands of the State Health Department."
